

# Eternal (feat. Smino)

## Chance the Rapper

Oh yeah  
Yeah, yeah, yeah, yeah  
Yeah, yeah, yeah, yeah Yeah, yeah, gotta throw it down Side chicks can't dance like this, uh  
Side niggas can't dance like this, no  
No, no, no, no, no, no, no, no  
Side niggas can't step like this, uh-uh  
Side niggas can't stomp like this, uh-uh  
Yeah, yeah, yeah, yeah, yeah, yeah (You know what time it is)  
What you know about this? This before your time  
I used to two-step in the 019  
I always been fine, this is not new wine  
I just happened to find a way to live my whole life in my prime  
Side niggas don't look this good, can't cook this good  
Can't fuck this good, can't get right  
You send him to the store and forget that he left  
You send me to the store, I come back with a chef  
I'll come back out of breath  
While your side nigga sittin' at the  
Club with a booty on his chin like a cleft  
I don't never want two that's the same as the next  
I made the three more famous than Steph  
No cap, that's a roundhouse kick to a Jameson's neck  
I got a Jada Pinkett keeping sure my shame is in check  
Cross-legged in the dojo, my master, mentor  
Side chicks can't take out splinters  
Side chicks make they Kool-Aid with Splenda  
Side chicks can't come to Auntie Linda's house  
They gon' send her off, they gon' send her out  
To buy more things that they hid in the couch  
Don't you know that side niggas can't cop no Tesla?  
Pull up in a ring like wrestlers  
Pop out at the soccer game with the VVS's and a bunch of snacks  
Model X Falcon, backseat, doing jumping jacks  
20-1-9, I want it one of a kind  
2020, I'ma be ahead of my time  
Twenty thousand leagues, the biggest fish in the pond  
But if you never go fishing, it's something you'll never find  
We can be (Eternal), eternal (Forever and ever)  
We can be (Eternal), eternal (Eternal, baby, we can be eternal, baby) I know some shawties  
that'll blast for me over blasphemy  
And throw that ass for me, show my last to sleep  
Huh, slow motion so I had to see

Before you start, fill my glass, wipe my glasses  
I love her passion, ooh (Sweet)  
I drunk my passion fruit (Sweet)  
I'm runnin' through your organs like when I pass the hoop  
I wanna pass the ball, I don't pass the ball  
I'm Kobe, baby, I ate it up  
I ain't ate all month, you lookin' like a plate of lunch  
Sentiment was edgy if she let her get stoned  
Almost fell in love, I hurt my heart from these songs  
Terminally known, she can feel it in the stones  
Huh, now she giving me ultimatums  
I told her I hate tomatoes, some chances, I gotta take 'em  
I can't see for the life of me  
Why all these hoes like me when I got wifey  
Side chicks can't do flat twists  
Bet a dollar you could buy me a Brisk (Yeah, yeah)  
Side chicks can't cook no grits  
Grits, nigga, grits  
We can be (Eternal), eternal (Forever and ever)  
We can be (Eternal), eternal (Eternal, baby, we can be eternal, baby)  
Side chicks can't dance like  
this, uh  
Side niggas can't dance like this, no  
No, no, no, no, no, no, no, no  
Side niggas can't step like this, uh-uh  
Side niggas can't stomp like this, uh-uh  
Yeah, yeah, yeah, yeah, yeah, yeah  
Oh yeah
