

# Agenda Suicide

## The Faint

You could follow logic  
Or contest it all  
The work solution makes the common house a home  
The element of progress  
That you mention is gone  
It de-evolved to something you were headed toward  
As i lay to die the things i think  
Did i waste my time, i think i did  
I worked for life  
All we want are just pretty little homes  
Our work makes pretty little homes  
Like a cast shadow  
Like a fathers dream  
Have a cut out son  
What's a worse disease  
To get that pretty little home  
As i lay to die the things i think  
I don't want to regret what i did- and work for life  
All we want are just pretty little homes  
Our work makes pretty little homes  
Agenda suicide  
The drones work hard before they die  
And give up on pretty little homes  
Our work makes pretty little homes  
Our work makes pretty little homes  
Agenda suicide, the drones work hard before they die  
And give up on pretty little homes
