

# You?

## Two Feet

Girl (girl, girl)  
Don't tell me your problems (Problems)  
I don't want to solve them (Solve?them)I don't?really care (I don't really care)And?you had a  
lot on your mind now  
Your mind, it's true (Your mind)  
So tell me the truth, was it me than  
Who needed you (You)Who needed was you  
Girl (girl, girl)  
I'm twisting and turning (Twisting and turning)  
This room here is burning (This room here is burning)  
Got smoke in the air (Got smoke in the air)And you had a lot on your mind now  
Your mind, it's true (Your mind)  
So tell me the truth, was it me than  
Who needed you (You)Who needed was youWho needed was you  
Tear me to pieces  
Why is the time so slow  
Don't got no reasons  
Everything I don't know  
Tell me you need it  
Tell me to take it home  
All that I'm thinking  
Wondering where we'll goWho needed was youWho needed was you
