

My World (feat. Billy Craven)

VERSE 1:

in in the room
boy on the moon
had had no no one
no one to hangout with
talk that shit to
just my
little homies
one year younger

took

a turn to the worst when my father left me lonely

(mmhmmmm)

lonely in my room

I I me me

up on the moon

entertained myself

laughed at myself

as I grew to be a teen

I disguised myself had the

lowest self esteem

especially with the girls

tried every sport just to

impress all the girls

instead of all the ladies

cause they talked down

I was too artsy

known to be a clown

(mmmmhmmmm)

hmph

and now my Facebook poppin

cause I told the same girls iI would be the

hot shit

one day

no one to hangout with

talk that shit 2

when will my time come

had mad jobs and I lost damn near all of them

thinking bout my bosses

yep I hated all of them

studio at night

had me hustling to most of them

nigga I was late

damn near everyday

but ima be on time when my stars align

when my soul was happy on my raman diet

followed by a loosie

was the meal of grinders

if you

knowing the truth

all you think about

is that thing

always be a hater tryna shoot down any dream

(mmhmmmm)

until you meet a kid like K.I.
