

# Heaven

## Depeche Mode

Sometimes I slide away  
    Silently  
I slowly lose myself  
    Over and over  
Take comfort in my skin  
    Endlessly  
Surrender to my will  
Forever and ever I dissolve in trust  
    I will sing with joy  
    I will end up dust  
    I'm in heaven  
I burn a fire of love  
    Over and over  
Reflecting endless light  
    Relentlessly  
I have embraced the flame  
    Forever and ever  
I will scream the word  
    Jump into the void  
I will guide the herd  
    Up to heaven
