

# OMYGOD!

Kate Nash

Hey  
Check me out  
I'm so happy by the sea  
Look  
I can tell all my friends are jealous of me  
But they don't know how I feel inside  
They don't know how I feel  
They don't know I pretend to smile  
When I look at the stars at night Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish he was in my bed  
Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish I was in your bed The sun shines down on me  
But I don't get no vitamin D  
The burgers are 2 for 1  
But I'm not having any fun  
Yesterday a dolphin kissed me  
But I just don't feel no different  
I'll write a postcard everyday  
That I intend to send your way Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish he was in my bed  
Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish I was in your bed Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish he was in my bed Oh my god  
I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no make no sense  
I wish I was in your bed Oh my god

I really really miss you  
I remember what it was like to kiss you  
The words you said don't make no sense  
I wish he was in my bed  
Oh my god
