

# Spirit

## J Hus

Even when we never had a penny, yeah we always had spirit  
They can bun my flesh, but they can't touch my spirit  
They wan' take way my freedom, but they can't take away my spirit  
Cos even when we never had a penny, yeah we always had spirit  
All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire  
All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire  
If I end up dead or poppin' on the wing, just know mummy raised a king  
Grind 'til money ain't a thing, you became a boss and brought all these bruddas in  
Live by loyalty and honour, same time I do what I wanna  
And I know how to treat a woman proper, cuh' I seen mama  
Suffer  
No money but we had life, I go hungry let my brother take my slice  
Ride outs and drive-bys, but deep down they're nice guys  
Lookin' spectacular in my spectacles, all my bruddas are stylish and fashionable  
Carry the ting like it's casual, came from the dirt it's only right that I blow  
Even when we never had a penny, yeah we always had spirit  
They can bun my flesh, but they can't touch my spirit  
They wan' take way my freedom, but they can't take away my spirit  
Cos even when we never had a penny, yeah we always had spirit  
All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire  
All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire  
It's so funny how life unfolded, come too far to even lose focus  
All we do is win I can't control it, but I can't take credit when God wrote it  
Used to be a snot-nosed kid  
I knew a bruddah, 16 with two kids, don't they grow up fast step outside and graft  
Your line don't bang cos you woke up last, you're grinding in slow motion  
I was out selling no lotion, he knows me I don't know him  
But money comin' on the boat load ting  
You let the goons dem in, I'm the fisherman cruising by gyal your waist need some loosenin'  
Let me some ting, what you think about you and I G'd up in the G-Wagon  
Even when we never had a penny, yeah we always had spirit  
They can bun my flesh, but they can't touch my spirit  
They wan' take way my freedom, but they can't take away my spirit  
Cos even when we never had a penny, yeah we always had spirit

All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire  
All you hear is siren and skeng fire, hold your head higher  
Bill a zoot, then build a empire  
Skeng fire, hold your head higher, bill a zoot, then build a empire
