

# Block

## Machine Head

Block. Block. Block.  
Hate breeds hate my eyes they have seen  
The decimation of all that is pure, pure  
A system that feeds their machine with  
The blood, sweat and money of the poor, poor  
Corruption gets rich, honesty just exists  
'Cause nobody cares anymore, anymore Fuck it all  
Fuck it all Block. Block. Block.  
White attack black, black attack back  
The fuckin' media keeps us all blind, blind  
Children on crack, junkies on smack  
You wanna close your eyes to hide, hide  
Pollution so dense, sickening existence  
New world order, new world decline, decline Fuck it all  
Fuck it all The more intense the sense of ignorance  
The more intense then is the pain Block. Block. Block. Hate breeds hate my eyes they have seen  
The decimation of all that is pure, pure  
A system that feeds their machine with  
The blood, sweat and money of the poor, poor  
Believe in something if it stops your suffering  
'Cause all we have is nothing  
Nothing  
Fuck it all. The more intense the sense of ignorance  
The more intense is the pain Fuck it all.
