Block

Machine Head

Block. Block. Block. Hate breeds hate my eyes they have seen The decimation of all that is pure, pure A system that feeds their machine with The blood, sweat and money of the poor, poor Corruption gets rich, honesty just exists 'Cause nobody cares anymore, anymoreFuck it all Fuck it allBlock. Block. Block. White attack black, black attack back The fuckin' media keeps us all blind, blind Children on crack, junkies on smack You wanna close your eyes to hide, hide Pollution so dense, sickening existence New world order, new world decline, declineFuck it all Fuck it all The more intense the sense of ignorance The more intense then is the painBlock. Block. Block. Hate breeds hate my eyes they have seen The decimation of all that is pure, pure A system that feeds their machine with The blood, sweat and money of the poor, poor Believe in something if it stops your suffering 'Cause all we have is nothing Nothing Fuck it all. The more intense the sense of ignorance The more intense is the painFuck it all.
