

It Never Snows In Florida

New Found Glory

Distance means nothing to me.
It only makes me want to see you longer...
My words just like a mentioned kiss
With every letter they are growing stronger...Days go by
Feelings, they go on
Well unfortunately without you
It'll never snow in FloridaIt's best to take your time
Conversation cuts like glass
I'm the calm before the storm
I'm the second before the crash
I've been between myself for days
(I've been between myself for days)
I'm the hero of the yearDistance means nothing to me.
It only makes me want to see you longer...
(yeah, yeah, yeah, yeah!)Days go by
Feelings, they go on
Well unfortunately without you
It'll never snow in FloridaIt's best to take your time
Conversation cuts like glass
I'm the calm before the storm
I'm the second before the crash
I've been between myself for days
(I've been between myself for days)
I'm the hero of the year
I've been between myself for days
(I've been between myself for days)
I'm the hero of the year
