

# It Never Snows In Florida

## New Found Glory

Distance means nothing to me.  
It only makes me want to see you longer...  
My words just like a mentioned kiss  
With every letter they are growing stronger...Days go by  
Feelings, they go on  
Well unfortunately without you  
It'll never snow in FloridaIt's best to take your time  
Conversation cuts like glass  
I'm the calm before the storm  
I'm the second before the crash  
I've been between myself for days  
(I've been between myself for days)  
I'm the hero of the yearDistance means nothing to me.  
It only makes me want to see you longer...  
(yeah, yeah, yeah, yeah!)Days go by  
Feelings, they go on  
Well unfortunately without you  
It'll never snow in FloridaIt's best to take your time  
Conversation cuts like glass  
I'm the calm before the storm  
I'm the second before the crash  
I've been between myself for days  
(I've been between myself for days)  
I'm the hero of the year  
I've been between myself for days  
(I've been between myself for days)  
I'm the hero of the year
