

# Travelling Heart

## Earl

Just when I think it's done it starts again  
This feeling creeps in from the cold  
I swear with a heart  
Stretched out as a wire [taut] I swear on my heart  
I never wanted to roam  
I swear while this heart  
Is pulled like a magnet from pole to pole  
That's all I'm left with a travelling heart  
One lover no longer and one soon to part  
It's not enough to be true at the start  
When all you have is a travelling heart  
Our time together I lose my sense of me  
All I see is my travelling heart  
My rusted charms no longer bring me luck  
Well, I stay inside myself  
What else can I do  
I am beside myself  
There's nothing left in me to give to you  
Well all I'm left with is a travelling heart  
One lover no longer and one soon to part  
It's not enough to be true at the start  
When all you have is your travelling heart  
All I'm left with is a travelling heart  
One lover no longer and one soon to part  
It's not enough to be true at the start  
When all you have is a travelling heart  
All I'm left with is a travelling heart  
One lover no longer and one soon to part  
It's not enough to be true at the start  
When all you have is your travelling heart  
Just when I think it's done  
Just when I think it's done  
Just when I think it's done  
It starts again
