

# Headlock (feat. KILLY)

## Carnage

Ten toes touch road  
When the war came home  
Blowing out smoke like a saw  
Molly, it made her unfold  
People, they come and they go  
Familiar faces won't show  
When they see you got places to go  
Independent, selling out all of my shows  
Ten toes touch road  
When the war came home  
Blowing out smoke like a saw  
Molly, it made her unfold  
People, they come and they go  
Familiar faces won't show  
When they see you got places to go  
Independent, selling out all of my shows  
On the interstate, need a getaway  
Feels like any day I'm 'boutta detonate  
I got energy, I got enemies  
They like jealousy, live the fantasy  
Chandelier, white wine  
Dinner table with the boss  
Become yourself in the night  
Exterminate all the tox  
Fake bitch, detox  
If I fall, shake it off  
Whole game, headlock  
If I want, then I got  
You forgot that she a thot  
She's YOLO angel  
That guap a lot, we chasin' that  
From every angle  
Pray my name live for ever, ever  
I feel Like Van Gogh  
Two bands on the Gucci sweater  
That's ten bills, ten toes  
Ten toes touch road  
When the war came home  
Blowing out smoke like a saw  
Molly, it made her unfold  
People, they come and they go  
Familiar faces won't show

When they see you got places to go  
Independent, selling out all of my shows  
Ten toes touch road

When the war came home  
Blowing out smoke like a saw  
Molly, it made her unfold  
People, they come and they go  
Familiar faces won't show

When they see you got places to go  
Independent, selling out all of my shows
