

A New Level

Pantera

Now a new look in my eyes my spirit rise
Forget the past
Present tense works and lasts
Got shit on
Pissed on
Spit on
Stepped on
Fucked with
Pointed at by lesser men
New life in place of old life
Unscarred by trials A new level of confidence and power Demanding plea for unity between us
all
United stand
Death before divided fall
In mock military order
Vulgar
Power
Impatient
Because time is shorter New life in place of old life
Unscarred by trials
A new level of confidence and power No fucking surrender
Can't lose
Life kills
