

# My America

## Deacon Blue

Church bells go ringing for you and I  
This bright sky is singing for you and I  
All the land goes laughing into that glad goodbye  
All the land goes laughing into that glad goodbye Oh my America my new found land  
Oh my America my new found land Church bells go ringing and strangers cry  
People keep bring their sad, sad smiles  
Time wont even listen to why we had to lie  
Time wont even listen to why we had to lie  
Oh my America my new found land  
Oh my America my new found land Listen to the wave crash  
Listen to the wave on the wide sound She's far and she's wide and she's one small step away  
She's far and she's wide and she's one small step away Church bells keep ringing for you and I  
We rush, we live, we laugh for some time night  
These green fields and roads go rolling in your eye  
These green fields and roads go back and back and back Oh my America my new found land  
Oh my America my new found land  
Church bells go ringing for you and I  
This bright sky is singing for you and I  
All the land goes laughing into that glad goodbye  
All the land goes laughing into that glad goodbye Oh my America my new found land  
Oh my America my new found land
