

What It's Made For (feat. Lennon Stella)

Nashville Cast

All the fear in my bones
Voices drag me down
Haunted by my ghosts
Circles round and round
And feeling my demons Go ahead and break, fall apart
This coat of armor feeds off the hurt
And the scars, makes me stronger
It's blood and veins but it gives me my strength
This heart can take all the pain
It's what it's made for
It's what it's made for Feel the fire in my chest
Let it burn, let it spread
Comes alive, ash to ash
Circles round and round
And embracing my demons
Go ahead and break, fall apart
This coat of armor feeds off the hurt
And the scars, makes me stronger
It's blood and veins but it gives me my strength
This heart can take all the pain
It's what it's made for
It's what it's made for
It's what it's made for
It's what it's made for
