

# Good Girls

LANY

Dancing on the line of a dangerous love  
You could break me overnight  
But there's no one like us  
Insatiably insane  
Equally exchanged Dancing in the light of a canyon sun  
Racing every wave  
Going North on the one  
The promises we make  
I still haven't changed  
Baby come back I know my way around your heart  
Don't start thinking  
Things have kinda changed  
They're different from what they are  
You know better  
That nothing is better than what we felt together at home  
You can find me  
Back in California and sleeping with all the lights on  
Won't you come and turn them out  
Come and turn them out  
Come and turn them out  
Come and turn them out Making more than love on the West side of town  
You could draw a line from the top to the ground  
I'm selfless drunk on you  
What more could I do  
Throw it all away cause you do what you want  
You took a little time, let 'em talk to you too much  
Good girls don't exist  
But I expected more than this Baby come back I know my way around your heart  
Don't start thinking  
Things have kinda changed  
They're different from what they are  
You know better  
That nothing is better than what we felt together at home  
You can find me  
Back in California and sleeping with all the lights on  
Won't you come and turn them out  
Come and turn them out  
Come and turn them out  
Come and turn them out Ooooooh  
Ooooooh  
Ooooooh  
Ooooooh Baby come back I know my way around your heart

Don't start thinking  
Things have kinda changed  
They're different from what they are  
You know better  
That nothing is better than what we felt together at home  
You can find me  
Back in California and sleeping with all the lights on  
Won't you come and turn them out  
Come and turn them out  
Come and turn them out  
Come and turn them out  
Come and turn them out
