

Harambe

Dumbfoundead

They tryna take me out like Harambe
I take a tranquilizer on a Monday
While the real ones we lost getting listed in the back
While the fronting motherfuckers get the front page
The world is a zoo, you've seen the news
You've seen them shoot at the youth
The world is a zoo
I see you pigs at the barbecue
God bless the red, white and blue
Harambe
Paranoia just to hit the corner
Store to get a cherry cola and a bag of chips with a bitch
They got neighborhood watch for the gangs and the cops
I ain't talkin' bout standards feel the burner on your neck
We'll give you an attorney or a gurney to get checked
We'll be lucky just to get the dirty dyin' earnin' death
They might give me 25 to life for murderin' my set
Broke boys everywhere like the government in debt
Welcome to the jungle with more guns than roses
Keep from going under now don't push me over
Hold my composure, four whiskey soda's
I need that Irish no luck with clovers
They tryna take me out like Harambe
I take a tranquilizer on a Monday
While the real ones we lost getting listed in the back
While the fronting motherfuckers get the front page
The world is a zoo, you've seen the news
You've seen them shoot at the youth
The world is a zoo
I see you pigs at the barbecue
God bless the red, white and blue
Harambe
