## Harambe

## **Dumbfoundead**

They tryna take me out like Harambe I take a tranquilizer on a Monday While the real ones we lost getting listed in the back While the fronting motherfuckers get the front page The world is a zoo, you've seen the news You've seen them shoot at the youth The world is a zoo I see you pigs at the barbecue God bless the red, white and blue Harambe Paranoia just to hit the corner Store to get a cherry cola and a bag of chips with a bitch They got neighborhood watch for the gangs and the cops I ain't talkin' bout standards feel the burner on your neck We'll give you an attorney or a gurney to get checked We'll be lucky just to get the dirty dyin' earnin' death They might give me 25 to life for murderin' my set Broke boys everywhere like the government in debt Welcome to the jungle with more guns than roses Keep from going under now don't push me over Hold my composure, four whiskey soda's I need that Irish no luck with clovers They tryna take me out like Harambe I take a tranquilizer on a Monday While the real ones we lost getting listed in the back While the fronting motherfuckers get the front page The world is a zoo, you've seen the news You've seen them shoot at the youth The world is a zoo I see you pigs at the barbecue God bless the red, white and blue Harambe
