

# Molecules

## Disclosure

The lights are too bright  
Let's turn them down and get to work  
You're in the limelight  
But I'll flip the switch if you prefer  
You keep acting like you didn't see me  
It's alright, I'll sit tight  
Interconnected, so don't hide the feeling  
I won't fight, it's not right  
You keep acting like you didn't see me  
It's alright, I'll sit tight  
Interconnected, so don't hide the feeling  
I won't fight, it's not right  
I'm attracted by the way you move  
And now you got me drowning by the things you knew  
And nothing can stop me  
I'm disregarding the rules  
It goes down to molecules  
I'm not looking for the words to say  
What you've already heard a hundred times  
Too late, I know that you got me  
I'm disregarding the rules  
It goes down to molecules  
I know you want me  
But I can act like I don't know  
It's nearly morning  
So grab your coat, it's time to go  
You keep acting like you didn't see me  
It's alright, I'll sit tight  
Interconnected, so don't hide the feeling  
I won't fight, it's not right  
You keep acting like you didn't see me  
It's alright, I'll sit tight  
Interconnected, so don't hide the feeling  
I won't fight, it's not right  
I'm attracted by the way you move  
And now you got me drowning by the things you knew  
And nothing can stop me  
I'm disregarding the rules  
It goes down to molecules  
I'm not looking for the words to say  
What you've already heard a hundred times  
Too late, I know that you got me  
I'm disregarding the rules  
It goes down to molecules
