

Betrayed

Mozzy

Never seen you behave like, like this
I ain't never been betrayed like this
I never seen you behave like, like this (Triple M on the beat), yeah I ain't never been betrayed
like this
Never seen you behave like this (Like this), yeah
I ain't never been betrayed like this
I never seen you behave like this (Like this)
Where's the loyalty to the oath which you are under?
Cracked under pressure when the crackers got on your bumper
They seem to disappoint me when I rely on my brother
Niggas die in December like niggas die in the summer
The pain run deep and it don't go away (Go away)
D.A. tryna prove a case without a throwaway (Throwaway)
You know I'm sturdy, I'm just worried 'bout my protégé
Fuck a blogger tryna instigate an open case
Plenty blues inside a duffel, nigga, know we straight (Know we straight)
Nigga act like he the muscle, baby, no he ain't (No he ain't)
Top dog around this bitch and I don't need a voucher
Miss the kata, I can't even help but to think about her
The thing about it, I mind my business and keep you out it
It keep me grounded, forever gon' keep this shit a thousand
Section eight'll have you waitin' for they public housin'
Sacrificin' for the killas, they get nothin' out it
I sat inside that holdin' cell eatin' tuna salad
When it get ugly, it's ugly, what you gon' do about it?
I love you dearly, you hear me? I'm with you right or wrong
I know these niggas ain't loyal, that's why I slide alone
Slither up and fire on 'em (Ugh)
I ain't never been betrayed like this
Never seen you behave like this (Like this), yeah
I ain't never been betrayed like this
I never seen you behave like this (Like this)
Where's the loyalty to the oath which you are under?
Cracked under pressure when the crackers got on your bumper
They seem to disappoint me when I rely on my brother
Niggas die in December like niggas die in the summer I was in the bounty with my guy
He the nigga, he got hit with an attempted
And his bitch became forgetful, blood
And he just want a shot of boffee
It be hard to shake these demons off me, yeah (Yeah)
It be hard to keep that yecky off me 'cause it'll cost me
Tell the army watch that back door, 'cause that's where it get faulty

I can tell that you were salty 'bout this ho I'm finna see
And they demonstration was murder, never showed us how to win
While you ridin' 'round with them niggas who killed my friend
Never post a blam on the 'Gram, know it's the trend
Dreams to get rich off of grams when we was kids
Great bodily damage with the SIG on all them tricks
Ayy, free the stitch-lipped
'Cause Lord knows all that talkin' gets you sizzled
Bitch, I'm tryna walk you down with this utensil
Baby mama rental, I covered the incidentals
Slithered through your residential to settle the differentials
Nigga, come outside (Ugh) I ain't never been betrayed like this
Never seen you behave like this (Like this), yeah
I ain't never been betrayed like this
I never seen you behave like this (Like this)
Where's the loyalty to the oath which you are under?
Cracked under pressure when the crackers got on your bumper
They seem to disappoint me when I rely on my brother
Niggas die in December like niggas die in the summer, yeah Triple M on the beat
