

One thing I've been told  
Nothin' else compares  
To this lovin' body If you want my future then  
You better work it, boy  
No, it won't come easy, no  
I know you want this  
By the time I'm through with you  
You'll be beggin' me for more  
So you want my lovin', no  
I know you want this If you want my future then  
You better work it, boy  
No, it won't come easy, no  
I know you want this  
By the time I'm through with you  
You'll be beggin' me for more You want this  
Don't you?  
You want this?  
Say it You want this? You know it's just true  
You want this? You know it  
You want this? You know it's just true  
You want this? You know it You want this?  
You want this?  
Can you handle this?  
Well, come here then Early in the mornin'  
(You want this?)  
Late in the evenin'  
(You want this?)  
Just about around midnight  
(You want this?)  
'Cuz you know I'll do you right baby  
(You want this?) Ooh, what's my name, boy?  
(You want this?)  
'Cuz you gotta say my name, boy  
(You want this?)  
Just a little bit louder now  
(You want this?)  
Just a little bit softer now  
(You want this?)  
I am nice and easy You want this?  
You want this?  
You want this?  
You want this?
