

# Back Around

## Iration

What you said  
I can't seem to get it out of my head  
Lost in the thoughts of the past when I go to bed  
I thought that I'd move on  
You'd just become a brand new song  
Miscounted the one that was there to be counted on  
This wounded heart of mine can't walk the  
line  
Maybe I'll be better off the 2nd time  
Waiting for you to come back around girl  
So you can save my world  
And when the lights go on in the night I'm not lonely  
Back around girl  
Change my world  
And when the lights go off in the night I'm not lonely  
I could've been a better man  
I could've tried to understand  
But I don't know anything  
I lost before I began  
This wounded heart of mine can't walk the line  
Maybe I'll be better off 2nd time
