

# Sweet Adeline

Elliott Smith

cut this picture into you and me  
burn it backwards kill this history  
make it over make it stay away  
or hate'll sing the ending that love started to say there's a kid a floor below me saying brother  
can you spare  
sunshine for a brother old man winter's in the air  
walked me up a story asking how you are  
told me not to worry you were just a shooting starsweet adeline  
sweet adeline  
my clementine  
sweet adeline  
it's a picture perfect evening and i'm staring down the sun  
fully loaded deaf and dumb and done  
waiting for sedation to disconnect my head  
or any situation where i'm better off then dead
