

# Hurt Me

## Juice WRLD

Turned to a whole different person, drive my whip  
Crash my whip off the drugs I'm swervin' Sticks and stones may break my bones  
But the drugs won't hurt me, the drugs won't hurt me  
Ex girlfriend keeps calling my phone  
But the bitch can't hurt me, so I'm not worried  
All alone, did it on my own  
So I show no mercy show  
I show no mercy  
With my bros but I got my pole  
Screaming please don't urge me,  
Please don't urge me, yuh  
Screamin please don't urge me  
And fuck these hoes all they do is irk me  
I smoke my dope and I pop my perky  
And I lock my phone cus these hoes be lurkin, yuh  
Yeah, these hoes be lurking  
A bad lil bitch with her hips so curvy  
I drive my whip off the drugs, I'm swervin  
She ride my dick off the drugs, she swerving, woah Turned to a whole different person, drive  
my whip  
Crash my whip off the drugs I'm swervin'  
Sticks and stones may break my bones  
But the drugs won't hurt me, the drugs won't hurt me  
Ex girlfriend keeps calling my phone  
But the bitch can't hurt me, so I'm not worried  
All alone, did it on my own  
So I show no mercy show, I show no mercy  
With my bros but I got my pole  
screaming please don't urge me,  
Please don't urge me, yuh Turned to a whole different person, drive my whip  
Crash my whip off the drugs I'm swervin
