

Black Star

Avril Lavigne

Black star, black star
Forever you will be A shining star, shining star be whatever you can be
A rock star, rock star You will always be
A black star, black star, black star Black star, black star, black star
Black star, black star
Forever you will be
A shining star, shining star be whatever you can be
A rock star, rock star
You will always be
A black star, black star, black star
Black star, black star, black star
