

# Right or Wrong (feat. Future)

## YoungBoy Never Broke Again

Risk my life on my partna' care if he is right or wrong  
So much pain in my body I've been like this too long  
So much trynna stop me but I keep movin on  
I never give up I gotta keep it strong  
Things ain't been going right  
Take a risk and you gambling your life  
Forever thuggin on site  
My heart cold at night  
Things ain't been going right  
Take a risk and you gambling your life  
Forever thuggin on site  
My heart cold at night  
I've been standing outside of the door  
When Terell had stuck up the stove  
Look at my eyes tell me what you see  
Whole lotta pain you can say that you don't  
Give up on you I won't say that I won't  
A lotta people I had that to live alone  
Momma told that Im going to jail  
I ain't respond I just hang up the phone  
Them niggas trynna to get change on you  
How can you say that  
The whole time I was locked in a cell  
They was holding my back (no lie)  
Im on everything that's a fact, I ain't never looking back  
I ain't never going back, forever gon run up that sack  
Spit nothing but the truth when I spit on the track  
Show my scars I do not where a hat  
Baby Joe put that draco to his back  
Baby Joe put that draco to his cap  
That shit that you talkin I tell you it's cap  
Don't talk on that phone I know that its tapped  
Fuck jail I don't wanna go back  
Fuck hell yeah I am living thru that  
Need money take me to where is at  
NBA, I put that on the map  
Everyday they be in the trap  
Death for me so I stay with a strap  
It's gon happen ain't no runnin from that  
Hope my sons could grow up with a dad  
I be scared real quick I get mad  
I ve been scared I do this for my friends

Risk my life on my partna' care if he is right or wrong  
So much pain in my body I've been like this too long  
So much trynna stop me but I keep movin on  
I never give up I gotta keep it strong  
Things ain't been going right  
Take a risk and you gave me your life  
Forever thuggin on site  
My heart cold at night  
Things ain't been going right  
Take a risk and you gave me your life  
Forever thuggin on site  
My heart cold at night I've been doing everything wrong  
Draped up in VVS stones  
When they want Chanel I put it on  
Caught the Bentayaga put it on  
Hop the Lamborghini and I'm gone  
I didn't hit a lick fucking long  
I was selling likes in the zone  
I don't ran it up from money long  
I just speed race for the dollars  
I got cuban link on my coler  
Keep a plane AP on my wrist  
I done already got rich  
Got 20 chains in the vault  
Put a dog food to my dawg  
Im on prometh every single day  
I don't never have withdrawals  
The streets they calling my name  
Start gainin a little fame  
Drive the bitches insane  
Most niggas gonna change  
My niggas stay the same  
Switching in another lanes  
I just cop a new Range  
Only drove it one time  
Still thuggin one time  
Turn a seven to a dime  
Whoop the four to a nine  
Flawless diamonds gonna shine  
Make a nigga go blind  
I've been walkin like a head light  
Get a different head every night  
Gotta understand I love this life  
Treat the 5 star hotel like's a motherfuckin projects  
I recognize that Im blessed?  
Im very different from the rest  
Put my niggas on jets  
Just to motivate the thugs  
Just to show the nigga love Risk my life on my partna' care if he is right or wrong

So much pain in my body I've been like this too long  
So much tryna stop me but I keep movin on  
I never give up I gotta keep it strong  
The anxiety gonna ride  
Take a risk and you gave me your life  
Forever thuggin on site  
My heart cold at night
