

My Night (feat. 070 Shake)

Keys N Krates

Nothing in return
I'm getting tired
Nothing in return
I'm getting tired
My rock, you did something different to tonight
My rock, you did something that changed my life This night is my night
Baby let's dance
Because this night is my night
Let's romance Yeah, take shots
They free tonight
Free thoughts
Let's beat the night
Dancing, this night is my night
Let's romance
Nothing in return, I'm getting tired
Nothing in return, I'm getting tired
My rock, you did something different to tonight
My rock you did something that changed my life I think you should leave
You should wait till the morning comes baby
Right now's just not good
I think you should leave
You should wait till the morning comes baby
Right now's just not - This night is my night
Baby let's dance
Because this night is my night
Let's romance
Yeah, take shots
They free tonight
Free thoughts
Let's beat the night
Dancing, this night is my night
Let's romance
