

# Sing to You

John Splithoff

I breathe you in without fail  
Eh, and then I think twice  
Before I exhale But you know I'm on keep  
You tell me, you wanna be free  
Yeah, you wanna keep it nice  
You wanna keep it low-key Oh, but don't bring me down  
Oh, just try to understand me  
Won't you come a little closer  
And let me whisper to you  
And I say:  
You don't have to worry 'bout a single thing  
Just let me sing to you  
Oh, eh  
No, you don't have to worry 'bout a single thing  
Just let me sing to you  
Oh No, I know your protect could throw my hopes way  
You'd like set me off, to prank me off, night and day  
You can do what you like I'm not trying to be your one and only  
I just try to make you feel good  
So good, so good, so good, so good, so good Oh, but don't bring me down  
Oh, just try to understand me  
Won't you come a little closer  
And let me whisper to you  
And I say:  
You don't have to worry 'bout a single thing  
Just let me sing to you  
Oh, eh  
No, you don't have to worry 'bout a single thing  
Just let me sing to you  
Oh You don't have to worry 'bout a single thing  
Just let me sing to you  
Oh, eh, no  
You don't have to worry 'bout a single thing  
Just let me sing to you  
Oh, he- he- hey You don't have to worry 'bout a single thing  
Just let me sing to you  
Oh, eh  
No, you don't have to worry 'bout a single thing  
Just let me sing to you  
Oh
