

Feels (Jai Wolf Remix)

Kiiara

And I got way too many feels, way too much emotion
I don't even know what's real
I just say fuck it, keep on going
And I get deeper, I get deeper, yeah, I feel I'm rolling
I can see you, yeah, I see you
I don't know, I think I'm rolling
Yeah, it's way too many feels, way too much emotion
I don't even know what's real
I just say fuck it, keep on going
And I get deeper, I get deeper, yeah, I think I'm rolling
I can see you, yeah, I see him
I don't know, I just keep on going
And I got way too many feelings, way too much emotion
All this Xans inside my body, I say fuck it keep on drowning
You can bring a juice I'll match you
Yeah, you mix it, pour the potion
I don't know who you are, but I'd dive into your ocean
Yeah, you say you smoking grams, I'm smoking into the Grammys
You say you got them bars, but all I see is candy
Still you came through so low-key, think you
understand, I don't know me
Still I get along with your best friends, even better with your family
And I got way too many feels, way too much emotion
I don't even know what's real
I just say fuck it, keep on going
And I get deeper, I get deeper, yeah, I think I'm rolling
If you see him, yeah, I see him
I don't know I just keep going
Yeah, I have way too many feels, way too much emotion
I don't even know what's real
I just say fuck it, keep on going
I got all I need, you don't know what I mean
Yeah we pour up 'til we go up
And I got way too many feels, not enough to forfeit
So many fuckin' bands, so you know we finna blow it
We be faded when I'm sober, sober when I'm faded
Over scrutinized by all your counterparts there's no debating
You say it's cause they jaded, yeah, they jealous that I made it
Do you remember that first time I missed you in the basement?
Back when we really didn't know it, we were searching for some
Now they pay full advance, and there ain't no fucking discussion
At the stage they jumping because it's like that
You see all these checks and now your girl ain't even write back
You drink all my rose, and you know what to do
Someone dropped up a dose, so we finna get screwed
You know I got like way too many feels, way too much emotion

Don't know how to make you feel, but I'm sorry bitch, I'm flowing
You know I just drop top in that coupe, zoom
Don't know where you been at, true
Now I'm searching for who, you
Yeah, I'm coming right back
And I got way too many feels
Way too many feels
