

# Come Clarity

## In Flames

Rushing through 30  
Getting older every day  
my soul drawing pictures of innocent times  
Can you add color inside these lines? I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day  
Sure, if i would change my perspective  
I'm certain I would change today  
I'm certain it will change our ways  
Would things fall into place I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day  
I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day  
I want you to lead me  
Take me somewhere  
Don't want to live in a dream one more day  
Take me somewhere  
Don't want to live in a dream one more day  
Don't want to live in a dream one more day
