

Tell Me

RAYE

Close to perfect, close to perfect
I can't argue that you're close to perfect and almost worth it, so I'll argue back
You're pretty dreaming, big achiever, and you always back up what they say, but you can't do,
you always bring it back.
They all tell me that you can let me down, no no
They don't know the way I know you, no no, they don't know
You kill everything you touch, but in that good way, oh
You don't wanna but you never need to let them know. Now that's what i love about you, love
about you, love about you,
And there is nothing that i don't love about you, love about you
So tell me what you love about me, yeah
Tell me what you love about me, yeah
Tell me what you love about me, yeah.
Tunnel vision, focused on it, oh you've always been
On your mission, first position and I always seem to be surprised
And taken back, by the fact, that you work so hard
Carry all this weight on your back.
They all tell me that you can let me down, no no
They don't know the way I know you, no no, they don't know
You kill everything you touch but in that good way, oh
You don't wanna but you never need to let them know. Now that's what i love about you, love
about you, love about you,
And there is nothing that i don't love about you, love about you
So tell me what you love about me, yeah
Tell me what you love about me, yeah
Tell me what you love about me, yeah. Recognition, a flawless precision
Handmade, handcrafted, all made for me
And I, I can never need anything more
I don't need anything more.
Now that's what i love about you, love about you, love about you,
And there is nothing that i don't love about you, love about you
So tell me what you love about me, yeah
Tell me what you love about me, yeah
Tell me what you love about me, yeah. Tell me ya, tell me, tell me, tell me ya
So tell me what you love about me,
Tell me ya, tell me, tell me, tell me ya
So tell me what you love about me,
Tell me ya, tell me, tell me, tell me ya
So tell me what you love about me,
Tell me ya, tell me, tell me, tell me ya
So tell me what you love about me,
Tell me ya, tell me, tell me, tell me ya

So tell me what you love about me,
Tell me ya, tell me, tell me, tell me ya
Tell me ya, tell me, tell me, tell me ya .
