

Wild Child

Heart

It's too late to turn back
When the green lights flash
Too late to turn around
When the love goes down Your fire my fate
This woman won't wait
So love beam your laser light
Get ready gonna take this flight You're so wild
(you're wild and willing)
So wild (your spirit's free)
You're such a wild wild child
Oh baby go wild with me Two hearts one mind
Baby you're my kind
You're too hot you're too much
You've got that personal touch
Push button play thing
Make my back door ring
Fight fire with a little fire baby
You oughta know you make this
little girl sing You're so wild
(you're wild and willing)
So wild (your spirit's free)
You're such a wild wild child
Oh baby go wild with me Do your little shake baby
rattle and roll
Ring my bell baby do my soul
Don't let the grass grow under my feet
Bang my drum baby feel my beat
you're so wild
You're so wild
(you're wild and willing)
So wild (your spirit's free)
You're such a wild wild child
Oh baby go wild with me You're so wild
(you're wild and willing)
So wild (your spirit's free)
You're such a wild wild child
Oh baby go wild with me
