

# Old Friend

## Elderbrook

Oh, you're just the same as I used to know  
Always playing games in the strangest ways  
And you come and go, go, go, just like before, 'fore, oh  
I should've known

Oh, you're just the same as I used to know  
Always playing games in the strangest ways  
And you come and go, go, go, just like before, 'fore, oh  
I should've known  
(I should've known)

And you're running me of hope  
Just walking down my road  
It's in my blood and bones  
But it's just like an old friend  
Coming up, yeah, I know them  
Drop top in the driveway  
Locked up 'cause it's slow then  
I've been looking for problems  
One look and I'm all in  
Is it late in the morning?

If I fall down then I can keep crawling And it's just like an old friend  
Coming up, yeah, I know them

Oh, you're just the same as I used to know  
Always playing games in the strangest ways  
And you come and go, go, go, just like before, 'fore, oh  
I should've known

Oh, you're just the same as I used to know  
Always playing games in the strangest ways  
And you come and go, go, go, just like before, 'fore, oh  
I should've known  
(I should've known)

And you're running me of hope  
Just walking down my road  
It's in my blood and bones And it's just like an old friend  
Coming up, yeah, I know them  
Drop top in the driveway  
Locked up 'cause it's slow then  
I've been looking for problems  
One look and I'm all in  
Is it late in the morning?

If I fall down then I can keep crawling And it's just like an old friend  
Coming up, yeah, I know them  
Drop top in the driveway

Locked up 'cause it's slow then  
I've been looking for problems  
One look and I'm all in  
Is it late in the morning?  
If I fall down then I can keep crawling I got a couple old friends  
I swear I'm tryna make amends  
Forget the years I haven't been  
And we can ride around again like before  
Making them fire on lows  
I got a couple old friends, ya And it's just like an old friend  
Coming up, yeah, I know them  
Drop top in the driveway  
Locked up 'cause it's slow then  
I've been looking for problems  
One look and I'm all in  
Is it late in the morning?  
If I fall down then I can keep crawling And it's just like an old friend  
Coming up, yeah, I know them  
Drop top in the driveway  
Locked up 'cause it's slow then  
I've been looking for problems  
One look and I'm all in  
Is it late in the morning?  
If I fall down then I can keep crawling
