

74 Years Young

Buddy Guy

I'm 74 years young, there ain't nothing I haven't done
I've been a dog and I've been a tomcat
I chased some tails and I left some tracks
I still know how to have my fun 'cause I'm 74 years young
Got a few good tricks up my sleeve
I know everything that a good woman needs
I show respect and I treat 'em right
They all keep coming back night after night
When it come to loving, I ain't never done
I'm 74 years young
I've been all around the world, everywhere is home
Drink wine with kings and the Rolling Stones
I got a few scars from the battles I won
'Cause I'm 74 years young
I've been all around the world, everywhere is home
Drink wine with kings and the Rolling Stones
I got a few scars from all the battles I won
I'm 74 years young
74 years young, gonna keep on having fun
When I get to them end of the line
I sure set the [Incomprehensible] real good time
But tonight I feel like I'm 21, I'm 74 years young
When it come to loving, I ain't never done
'Cause I'm 74 years young
When it come to loving, I ain't never done
I'm here to tell you, I said I'm 74 years young
I ain't ever had enough of nothing
74 years young
