

Hollow Bones, Pt. 2

Rival Sons

Choose your lord
choose that name
Choose your saviour
choose your saviour Who's gonna save,
who's gonna save you
Choose your lord, choose your lord Might be the creator
might be Jesus
You know it might be Krishna
no more saviour
And no religion
that I cannot make
I know that God sees you
just the same
When you're gone
you're hollow bones
When you're gone
Long gone
you're hollow bones When you're gone
you're hollow bones
You're hollow bones
When you're down
when you're weak
On your knees
and you cannot speak
Who's gonna save you
who's gonna save
Oh I believe
said I believe
God gonna save me
lord gonna rescue
Cause I believe
cause I believe
There's a different day
for my lord
You gotta do your best
to find your place And with my love
holy love
Holy love
holy love
