## Hollow Bones, Pt. 2

## **Rival Sons**

Choose your lord choose that name

Choose your saviour

choose your saviourWho's gonna save,

who's gonna save you

Choose your lord, choose your lordMight be the creator

might be Jesus

You know it might be Krishna

no more saviour

And no religion

that I cannot make

I know that God sees you

just the same

When you're gone

you're hollow bones

When you're gone

Long gone

you're hollow bonesWhen you're gone

you're hollow bones

You're hollow bones

When you're down

when you're weak

On your knees

and you cannot speak

Who's gonna save you

who's gonna save

Oh I believe

said I believe

God gonna save me

lord gonna rescue

Cause I believe

cause I believe

There's a different day

for my lord

You gotta do your best

to find your placeAnd with my love

holy love

Holy love

holy love
