## **Doubt It**

## **KYLE**

Yeah Yeah Yeah, she trippin' We all know she fuckin' with King Wavy Wave yeahI know Something only I know I got super powers but that's something only I know What I want is mine if I say it in my mind though Teach you if I had time, yeah Do I got the time? No Shit these niggas dream about is not even a milestone

Call up Dr. Seuss, I think they running out of rhymes though Jugging and finessing, we've heard that a hundred times though Niggas keep repeating theyself like they in a vine

In a vine In a vine though Why they gotta lie, though? Say them diamonds dancing homie We know that it's rhinestones I don't got a 'rari But my whip is really mine though I don't got no thotties But I know my bitch is fine though I'm from California

You can tell just by my Vans My nigga's about it You can tell just by his stance

Don't throw no subliminals Or he'll be throwing hands

My bro bro play baseball

I hope you know how to catch

I just earned my cue, ooh

They know I'm up next

Curly headed cute cute

She send me the text

Yeah, I been the dude dude

Since I made a YouTube

Fuck a million views

Needed views so I'm floating like I'm Mewtwo

Zoning in California

On a mountain

High up, I'm with my main thing She keep me grounded

Don't test us

She with the extras

Read all about it

You 'bout it?

I really doubt it

I really doubt itZoning in California

On a mountain

High up, I'm with my main thing

She keep me grounded

Don't test us

She with the extras

Read all about it

You 'bout it?

I really doubt it

I really doubt it

Haircut like the 80's, yeah

Don't need a Mercedes

To maneuver Uber everywhere

Bank account like ...wait

Let's not even take it there

My career don't make it fair

Ain't no elevator to success, I had to take the stairs

How you think I made it here?

Climbin', climbin'

How you think you make it here?

Grindin', grindin'

I chase after what I want

And I don't stop to take a breath

You can't run up on me, yeah

You need to take baby baby baby baby steps

Who you think you playin' with?

Nigga I'm a gamer, yeah

You should check my gamer tag

Fire spittin' kitten

Who you kiddin'?

I will flame your ass

Call of Duty champion

Do you know you aimin' at?

Nigga, you my son

Fuck around and I'll rename your ass

Give you to adoption, make your momma come reclaim your ass

Well, I guess that's a little harsh

But everyone can't be a star

Sometimes niggas gotta read the script and play they part

Aw man damn, why is that so hard?

I don't know

I don't know man

I just want to play Assassin's Creed

Give my baby what she needs

And watch my HBO shows in peace PeaceZoning in California On a mountain High up, I'm with my main thing She keep me grounded Don't test us She with the extras Read all about it You 'bout it?
