

Pick Up the Phone

Falling In Reverse

"Beep" Pick up the phone Answer your texts
Well i apologize about last night
I really did not mean to disrespect
You
You better be alone No i'm not obsessed
But if I catch you with somebody else you know that
I am gonna be upset
I truly believe
That the reason i'm here
Is to tell you the truth
That your ending is here
Oh One day you must look at yourself in mirror
I still don't think you are hearing me clear!
You must understand that our friendship is done
Justified by the person that you have become
And because of the fact that enough is enough!
Now I'm the one that is holding the gun!
Whoa This will be the end of us
I have tried way too many times to heal
I have loved you so much it hurts me dear
And this, this will be the end of us!
Pick up the phone!
Pick up the phone!
Pick up the phone!
Well i apologize about last night
I really did not mean to disrespect
Pick yourself up Up off the floor
Wipe the tears from off your face
Because the cops are knocking on the door
They're gonna wanna know what's up! Better tell them that you fell
Cause when they see the bruises on my face
They're probably taking both of us to jail
I'm sick and tired of fighting each other The lying, the crying, the calling your mother
The calling of names, I'm bothered and smothered
We kiss and make up, get under the covers
A dangerous cycle i don't understand
The kicking, the screaming, the breaking of limbs
I'll be damned if i see you with some other man
If i cannot have you, then nobody can!
Whoa This will be the end of us
I have tried way too many times to heal
I have loved you so much it hurts me dear

And this, this will be the end of us
Death do us part I thought you would never go
Stray from my heart
I'm better off without you here!
Pick up your phone "Your call has been forwarded to an automatic voice message system"
Pick up your phone
Pick up the phone! *beep*
Whoa
This will be the end of us
I have tried way too many times to heal
I have loved you so much it hurts me dear
And this, this will be the end of us
Pick up the phone
Pick up the phone
Pick up the phone
Well i apologize about last night
I really did not mean to disrespect
"We're sorry the number you have dialed
Is not in service at this time, fuck you."
