

# We Are

## Big Time Rush

Thinking, we don't wanna get caught up in over thinking  
We only got tonight  
Moments, we gotta keep on living for these moments  
'Cause this is our time Life's too short to sit and wait  
For luck to come our way  
Light it up like fireworks  
I wanna hear you say We are, we are  
We are alive  
And we are the light that's shining now  
We are, we are  
We are the reckless  
And you can hear us drowning out the sound  
We are, we are  
Young and dumb, always chasing something  
We are, we are  
Hearts like drums, you can hear us coming  
We are, we are  
Chances, you know there's nothing wrong with taking chances  
We put it on the line  
Oh someday, I know we're gonna be somebody's someday  
Only gotta try Life's too short to sit and wait  
For luck to come our way  
Light it up like fireworks  
I wanna hear you say We are, we are  
We are alive  
And we are the light that's shining now  
We are, we are  
We are the reckless  
And you can hear us drowning out the sound  
We are, we are  
Young and dumb, always chasing something  
We are, we are  
Hearts like drums, you can hear us coming  
We are, we are  
Oh oh woah, woah oh  
We are, we are  
Oh oh woah, woah oh  
We are, we are  
Oh oh woah, woah oh  
We are, we are
