

# Only for so Long

## Dishwalla

How many times has this gone on?  
Call 'cause it's just been too long  
Say it's good to hear it's going fine  
Check that you're still featured in my mind  
Tell me what you want to hear  
And I'll play along  
Tell me when you want me near  
And I'll play along  
But only for so long  
Show me scars where it began  
And I will come with violins  
I don't need a clock to know it's wasted time  
What's your mood ring doing now?  
Tell me if you want me near  
And I'll play along  
Tell me what you love to fear  
And I'll play along  
But only for so long  
Only for so long  
Only for so long  
Tell me if you want me near  
And I'll play along  
Tell me what you love to fear  
And I'll play along
