

Fire In My Soul (feat. Shungudzo)

Oliver Heldens & Leandro Da Silva

Touch me like you've never touched somebody before, ah
You are made of pure dreams, mixed with Champagne for sure Do you ever wonder how good
life could be?

You don't have to wonder, just be next to me There's a fire in my soul, it's the gasoline in you
Make me burn out of control

There's a fire in my mouth, only you could put it out

Come on over put it out There's a

Fire in my soul

There's a

Touch me like you've never touched somebody before
You are made of pure dreams, mixed with Champagne for sure Do you ever wonder how good
life could be?

You don't have to wonder, just be next to me There's a fire in my soul, it's the gasoline in you
Make me burn out of control

There's a fire in my mouth, only you could put it out

Come on over put it out There's a

Fire in my soul

There's a There's a fire in my soul, it's the gasoline in you

Make me burn out of control

There's a fire in my mouth, only you could put it out

Come on over put it out

There's a fire in my soul, it's the gasoline in you

Make me burn out of control

There's a fire in my mouth, only you could put it out

Come on over put it out There's a

Fire in my soul

There's a
