

# This Is Your Life

## En Vogue

This is your life  
Live it your own way  
This is your life  
Live it your own way I lived part of my life  
Being scared of my dreams  
Every time someone asked  
What I'm shooting for in life  
I will hide my true feelings And when I spoke up to my friends  
They made fun of my dreams  
So when times got too rough  
I would think back on one thing  
My mama would say to me  
"This is your life  
Yeah, you got to  
Live it your own way"  
Mama would say  
"This is your life  
You got to  
Live it your own way" Forces of Evil struck back and forth  
Throughout my young days  
Because I would listen  
And care what other people would say Like a four letter word  
I ignored the whole world  
And built my own tiny world  
With respect But it took time to relate  
What my momma would say  
Time after time again, she said  
"This is your life  
You got to  
Live it your own way"  
My mama would say  
"This is your life  
This is your life, you got to  
Live it your own way" It's gotta be that way  
This is your life  
Live it your own way  
Mama used to say  
"This is your life  
This is your life, you got to live  
Live it your own way" This is your life  
You got to  
Live it your own way

My mama would say  
"This is your life  
This is your life girl  
Live it your own way" It's gotta be that way  
This is your life  
Ooh, you got to live  
Live it your own way  
This is your life  
Gonna live your life, all the best now  
Live it your own way This is your life
