

# Insomniac

## Timeflies

My racing, sleep chasing  
These flashing lights and they gone  
Keep testing my patience  
I always get what I want  
Sleep dreaming, still faded  
We wrestle dusk until dawn  
No question, I'm waiting, let's keep this gone  
Once you close your eyes, eyes  
Running down your thighs, thighs  
Got you hypnotized  
I, I got you begging for more  
Than just a dream, dream  
Silhouetted screams, screams  
Hop on top of me, set you free  
I just need to know  
Could you be my, be my, be my  
Be my insomniac  
Dreaming, got you screaming  
Heavy breathing, knock you on your back  
Could you be my, be my, be my  
Be my insomniac  
I got you feeling like the insomniac  
So restless, so jaded  
With just a touch, you let go  
This movie, X-rated  
Sit back and watch you unfold  
Just let me demonstrate it  
Elevating, no control  
Don't question, I'm waiting  
Let's keep this going  
Once you close your eyes, eyes  
Running down your thighs, thighs  
Got you hypnotized  
I, I got you begging for more  
Than just a dream, dream  
Silhouetted screams, screams  
Hop on top of me, set you free  
I just need to know  
Could you be my, be my, be my  
Be my insomniac  
Dreaming, got you screaming  
Heavy breathing, knock you on your back  
Could you be my, be my, be my  
Be my insomniac  
I got you feeling like the insomniac  
Addicted to your teasing, the guillotine, headless

Vis-à-vis, put it on me, I'm reckless  
Make a checklist, we could try it out  
I'mma turn your body inside out  
I don't need sleep, I just need a freak  
Tryna creep, never leave the sheets  
We could stay in bed for a week  
Cause I can KO, lay you way low  
Popping off, volcanoes  
Do this all night and all day, yo  
Could you be my, be my, be my  
Be my insomniac  
Dreaming, got you screaming  
Heavy breathing, knock you on your back  
Could you be my, be my, be my  
Be my insomniac  
I got you feeling like the insomniac  
Could you be my, be my, be my  
Be my insomniac  
Dreaming, got you screaming  
Heavy breathing, knock you on your back  
Could you be my, be my, be my  
Be my insomniac  
I got you feeling like the insomniac
