11th Hour

Lamb of God

The hour of reckoning draws near Judgment day is here and gone Sweetly she draws me into her arms A liquid embrace to chase the day awaySedate, numb, deaf and dumb Stumbling into solitude A clouded judgment day is fueled Take me under your black wingsMark my words and remember me So sweetly she sucks away at my time So sweetly she draws me nigh Closer and closer towards never ending sleepSpin the bottle Kiss only the bottle The dark mistress of many, beholden to none Slips a ring of needles around your arm in an engagementEternal engagement Never consummated Never consummated Take me under your black wings Mark my words and remember me Destroyer of senses So take as needed for the pain Another gray morning dawns across an ashen sky My sweet demoness beckons me Ever again and again and again and again The dark mistress of many, beholden to none My sweet demoness beckons me Ever again and again and again and again. Take me under your black wings Jacked up on the taste of self-destruction
