

# Looking Glass

## Little Dragon

Spilled our hearts our souls until it forced us to swim but all the water pass  
Was sinking fast  
Gave our all until the saw was digging in  
I watch it bleed  
I let it be Made me have to throw the looking glass  
You You  
Made it cold and made my summer pass  
You You The moon the dust the dreams the rust are shattered now  
I let them pass  
I let them dance  
Stolen time the crooked line is pointing up  
Were stars away blazing  
Made me have to throw the looking glass  
You You  
Made it cold and made my summer pass  
You You
