

Alphaville

Don't ask me to dance, I won't Nobody knows you're here
Deep undercover
You seem a bit afraid
Why do you suffer? Another night
A night in Alphaville This time is made for love
Let's play together
In every bar and club
Now and forever Another night
A night in Alphaville
You say you won't
For girl I know you will I'm hungry for your lies
You scream and whisper
A thousand alibies
You point the finger Another night
A night in Alphaville Don't try to read my mind
A broken circuit
Her on my hands are tied
Nobody's perfect Another night
A night in Alphaville You say you won't
But girl I know you will
The world goes 'round
But here it stays the same
In Second Class
Nobody knows your name Another night
A night in Alphaville You say you won't
But girl I know you will
I wanna live
But life ain't worth a dime
Lasting and light
Reflected in your eyes Another night
A night in Alphaville
