Lions

Samantha Crain

Bring all paralyzed things to my side Let me see, let me see Their bodies collide Underneath, underneath the lightPray for wooden floors We will all have bad dreams Underneath, underneath the drippy sink After all the ringing is gone to bedAnd I swear All the eye saw the white Is haunting me I'm always waking up screaming Where have you left me this time And there on the table Are all the stories you had told Tracing lines Of goldI couldn't see When you told me go away I don't want you around After todayRed mark Right there Over the doorway Passover bring us some privacy Take anything you wantAnd eyes a lion's came To rob us of our prey We cry Cause we lost more time

Cause we lost more time
And we stood up with fight
And we broke down the door
We promised we would not
Be afraid any moreOh oh
Gonna get you through this
Gonna get, gonna get you through this
Gonna get, gonna get you through this
Gonna get, gonna get you through this ohOh oh

Gonna get you through this Gonna get, gonna get you through this oh Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
