

Somebody Like Me (feat. ORKID)

State of Sound

I've come undone
Can only fake it for so long
Kept it at bay It's been too high a price to pay, baby Blown out of line
My screwed up heart has knocked me blind
Breaking the code
To get me pass this time of low, low, low Somebody told me that somebody wanted somebody
like me
And I hope that somebody is you
I am nobody, but I wish I could be somebody with you
If someone like you came along Like somebody like me
Like somebody like me
Like somebody like me
Forever more
You give me peace at time of flaw
A sea less shore
You lift the turtles from the sky, sky, sky And I don't know exactly what I'm asking for
So lead the way and got me where you wanna go
You have control
I will follow if you take me home Somebody told me that somebody wanted somebody like me
And I hope that somebody is you
I am nobody, but I wish I could be somebody with you
If someone like you came along Like somebody like me
Like somebody like me
Like somebody like me
When I was young
My mama left me all alone
But now I see the sun
My heart is beating rapidly
As I look deep into your eyes Like somebody like me
Like somebody like me
Like somebody like me
Like somebody like me
Like somebody like me
Like somebody like me
