

Drift Off to Dream

Travis Tritt

Drift off to Dream'As I sit here surrounded, By people and lights
Along with my drink at the bar
You've been here forever, So clear in my mind
I just don't know where you are
But I know I'll find you, But girl till I do
This is my love song for youLet's hold hands on the porch swing
Under the moon
While the wind through the willows
Plays us a tune
We can lie on a blanket, Out back in the yard
And wish for our future
On a far away star
And you'll feel the passion, As time after time
I press your sweet lips to mine
We can dance to the radio, Right up till dawn
Till you drift off
To dream in my arms
You might be hundreds, Or more miles away
Or you might be just down the street
But there'll be a hunger, Deep in your eyes
That I'll recognize when we meetIt might take hours, Or it might take years
But this is the song you will hearLet's hold hands on the porch swing
Under the moon
While the wind through the willows
Plays us a tune
We can lie on a blanket, Out back in the yard
And wish for our future
On a far away star
And you'll feel the passion, As time after time
I press your sweet lips to mine
We can dance to the radio, Right up till dawn
Till you drift off
To dream in my arms
And you'll feel the passion
As time after time
I press your sweet lips to mineWe can dance to the radio, Right up till dawn
Till you drift off
To dream in my arms'
